Cytotechnology **12**: 397, 1993.

Author Index

Abraham, E.H., 325

Belvedere, G., 257

Center, M.S., 109
Chauffert, B., 347
Clynes, M., 231, 289
Croop, J.M., 1

Daly, C., 289
Dimanche-Boitrel, M.-T., 347
Dixon, K.H., 155
Doehmer, J., 358
Dolfini, E., 257

Fingleton, B., 367
Ford, J.M., 171

Garrido, C., 347
Germann, U.A., 33
Goeptar, A.R., 358

Hait, W.N., 171
Hall, K., 231
Heenan, M., 231
Heike, Y., 91
Hill, B.T., 265
Hofmann, G.A., 137

Mattern, M.R., 137
McDonnell, S., 367
Michelson, S., 315
Moriarty, M., 385
Moscow, J.A., 155

Nooter, K., 213

O'Driscoll, L., 289

Pessina, A., 127
Pomeroy, M., 385
Powell, S.N., 325

Saleh, M., 289
Schoenlein, P.V., 63
Sonneveld, P., 213

Tsuruo, T., 91

Vermeulen, N.P.E., 358

Cytotechnology **12**: 399, 1993.

Key Word Index

adjuvant therapy 137
alkylating drugs 347
anthracycline 247
anticancer drugs 358
antineoplastic agents 385
antisense 231
ATP-binding cassette superfamily 33
ATPase 33
atypical multidrug resistance 137

C219 91
camptothecin 127
cancer 289
cancer chemotherapy 171, 231
carcinoma 231
cell cycle arrest 325
cell membrane 325
chemosensitizer 171
circumvention of MDR 213
cisplatin 347
clinical trials 213
clonal variation 231
confluence 347
cross-resistance patterns 265
cytochrome P450 358
cytogenetics 63
cytokines 231

diagnosis of multidrug resistance 91
DNA repair 325
doxorubucin 155
drug resistance 1, 358, 385
drug transport 33, 109
drugresistance 265

etoposide 155

facilitated diffusion 315
fractionated X-irradiation 265

gene amplification 63
glutathione 155
glutathione peroxidase glutathione reductase 155
glutathione S-transferase 155

haematological malignancies 213
human tumor cell lines 109

invasion 367

kinetic resistance cell cycle 347

low resistance 257

mathematical models 315
mdr-1 gene 231
MDR 1, 127, 213, 257, 315
membrane protein alterations 109
metabolic activation 358
metalloproteinases 367
metastasis 367
modulation 171
monoclonal antibody 91
MRK16 91
multidrug resistance (MDR) 231
multidrug resistance 1, 33, 63, 91, 155, 171, 213, 289, 347

neoplasm 385
non-P-glycoprotein-mediated multidrug resistance 265
non-P-glycoprotein multidrug resistance 109

oncogene 325

P-glycoprotein 1, 33, 91, 137, 155, 213, 231, 257
P-glycoprotein-mediated multidrug resistance 265
P-glycoprotein regulation 265
P-glycoproteins 63
physical mapping 63

quantitative PCR 289

radiation resistance 325
radiation tolerance 385
radiotherapy 385
reverse transcriptase polymerase chain reaction (RT-PCR) 289

sequestration of drug 109
signal transduction 325
solid tumour 231

therapy of multidrug resistance 91
TIMPs 367
topoisomerase 137
topoisomerase 347
topoisomerase I 127
topoisomerase II 265
verapamil 109
vincristine 155
